THE PROBLEM WITH HOW MOST BRANDS SOURCE PACKAGING

Most cannabis brands are either:

- Overpaying through large firms like Stephen Gould: enterprise margins on every order
- Managing overseas suppliers themselves: time-consuming, high risk, no accountability
- Getting inconsistent quality because they don't have the right supplier relationships

The result: bloated packaging budgets, missed timelines, and a process that pulls your team away from what matters.

WHY SILK ROAD SUPPLY CO.

Same Supplier Network as the Biggest Brands

We source through our primary supplier: the same supplier behind major national cannabis brands. You get that level of quality without needing their volume or budget.

Better Pricing Than Larger Firms

We operate lean. No layers of account managers, no enterprise overhead. Our pricing reflects that: directly.

One Person Manages Everything

You deal with Mike. Not a team. Not a ticketing system. From spec to delivery, one person owns your order and is reachable when you need them.

We Handle the Entire Process

Spec coordination, supplier communication, sampling, production, freight, customs, delivery. You focus on your brand. We handle the rest.

DDP Shipping: No Surprise Costs

All freight, duties, and tariffs are included. What you're quoted is what you pay.

WHAT WE SOURCE

Paper & Cardboard: Pre-roll boxes (5-pack, 10-pack), paper bags, retail boxes

Pouches & Mylars: Standard and shaped pouches, 3.5g and 7g, multiple finish options

Tin Boxes: Round, square, and flat tins for flower, gummies, and concentrates

Glass: Flower jars, wax jars, and dropper bottles in the Black Glass Series

Plastic: Pop-top containers and flower jars: all child resistant

Branded Merch: Roll trays, tote bags, keychains, lighters, glassware, apparel

Exit & Delivery Bags: Compliant bags for retail and delivery operations

COMPLIANCE & QUALITY

- Child resistant certified (US 16 CFR §1700.20)
- Proposition 65 compliant
- PFAS tested and MSDS documented
- Third party lab tested by Beide Compliance Laboratory
- Samples always provided before mass production

HOW IT WORKS

Step 1: Share your product specs, quantities, and desired on-hand date

Step 2: We source options and provide a detailed quote within 48 hours

Step 3: Sample approved, production begins

Step 4: We manage production, QC, freight, and customs

Step 5: Product delivered to your door: DDP, no surprises

MOQ & LEAD TIMES

MOQ	Air Freight	Sea Freight
1,000–5,000+ units	12–15 days	25–40 days

No tooling or plate fees for new clients.
